

ALIGN THE WORKFORCE WITH BUSINESS STRATEGY

Organizations are constantly challenged with managing critical human capital information to align the workforce with business strategy. To maintain a competitive advantage, organizations need a robust set of visualization tools that access valuable data from their Enterprise Resource Planning (ERP) system to perform strategic and tactical human resource functions.

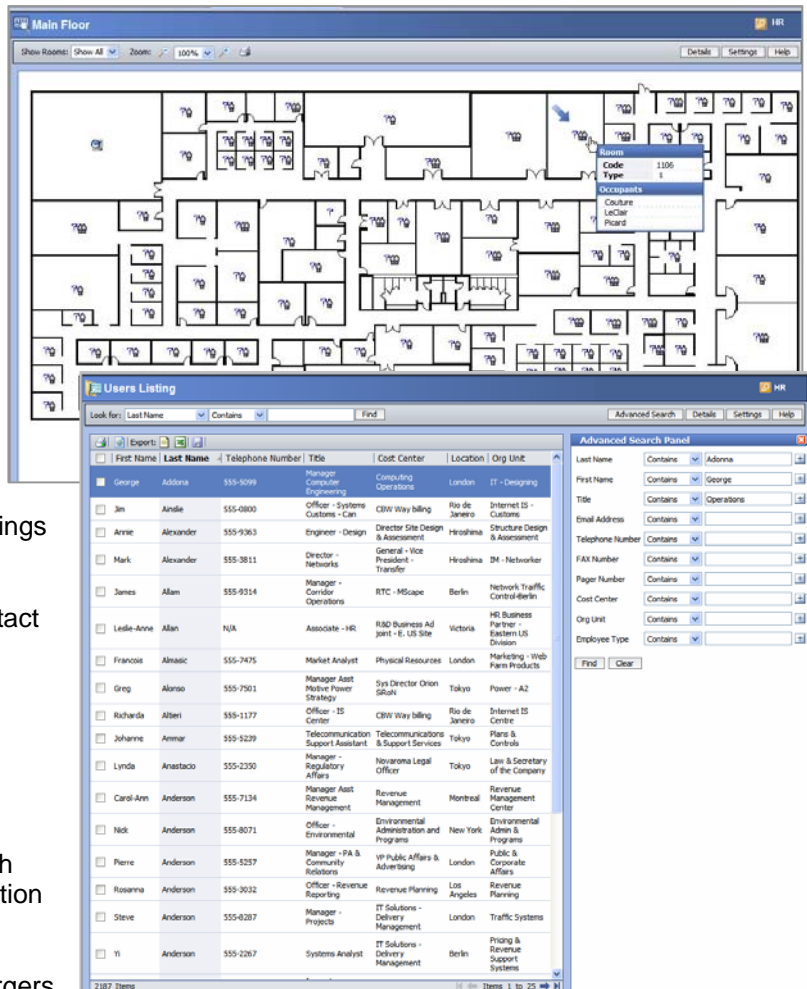

Seamlessly integrated as a powerful front-end layer with your ERP, Nakisa OrgManagement Series automatically displays real-time, up-to-date workforce information, eliminating manual input and transmission of outdated information throughout the organization.

DRIVE HUMAN CAPITAL ANALYSIS AND PLANNING

To optimize human capital management (HCM), Nakisa offers a 100% Web-based, functionally rich series of complimentary solutions for ERP systems:

- Nakisa OrgChart: display and visualize organizational charts and hierarchical information
- Nakisa OrgModeler: model organizational changes, such as mergers and acquisitions and restructurings via "what-if" scenarios
- Nakisa Directory: access employee contact details and organizational information
- Nakisa FloorPlan: view and search for organizational resources on floor and building diagrams

Nakisa OrgManagement Series delivers HR professionals, executives and line managers with the tools to align people, processes and information with strategy. This software series is the most complete solution used to easily manage organizational change, such as recruitment, mergers

and acquisitions, outsourcing, restructuring, new regulations and more.

CERTIFIED INTEGRATION MAXIMIZES YOUR INVESTMENT

Extensive collaboration between Nakisa and our platform partners has ensured Certified and Validated Integration with Oracle E-Business Suite, PeopleSoft Enterprise and SAP ERP for delivery of a scalable, enterprise solution that serves a wide range of vertical markets worldwide.

A SEAMLESS USER EXPERIENCE

Work seamlessly from within Nakisa’s easy-to-use interface and extend your ability to visualize complex organizational information. Nakisa OrgManagement Series is completely interoperable with your ERP through its dynamic, front-end functionality.

Our single point of access allows data to be aggregated from multiple sources in real-time and presented in highly interactive views. Users can easily visualize and model up-to-date human capital and resource information—eliminating the need to invest in another costly solution.
