

ENHANCE COMMUNICATION & COLLABORATION COMPANY-WIDE

As organizational structure changes and growth occur, managing and maintaining human capital information becomes an increasingly difficult task. Nakisa Directory is a 100% Web-based solution that provides your employees with a quick and easy way to search for, locate and collaborate with other individuals in the organization.

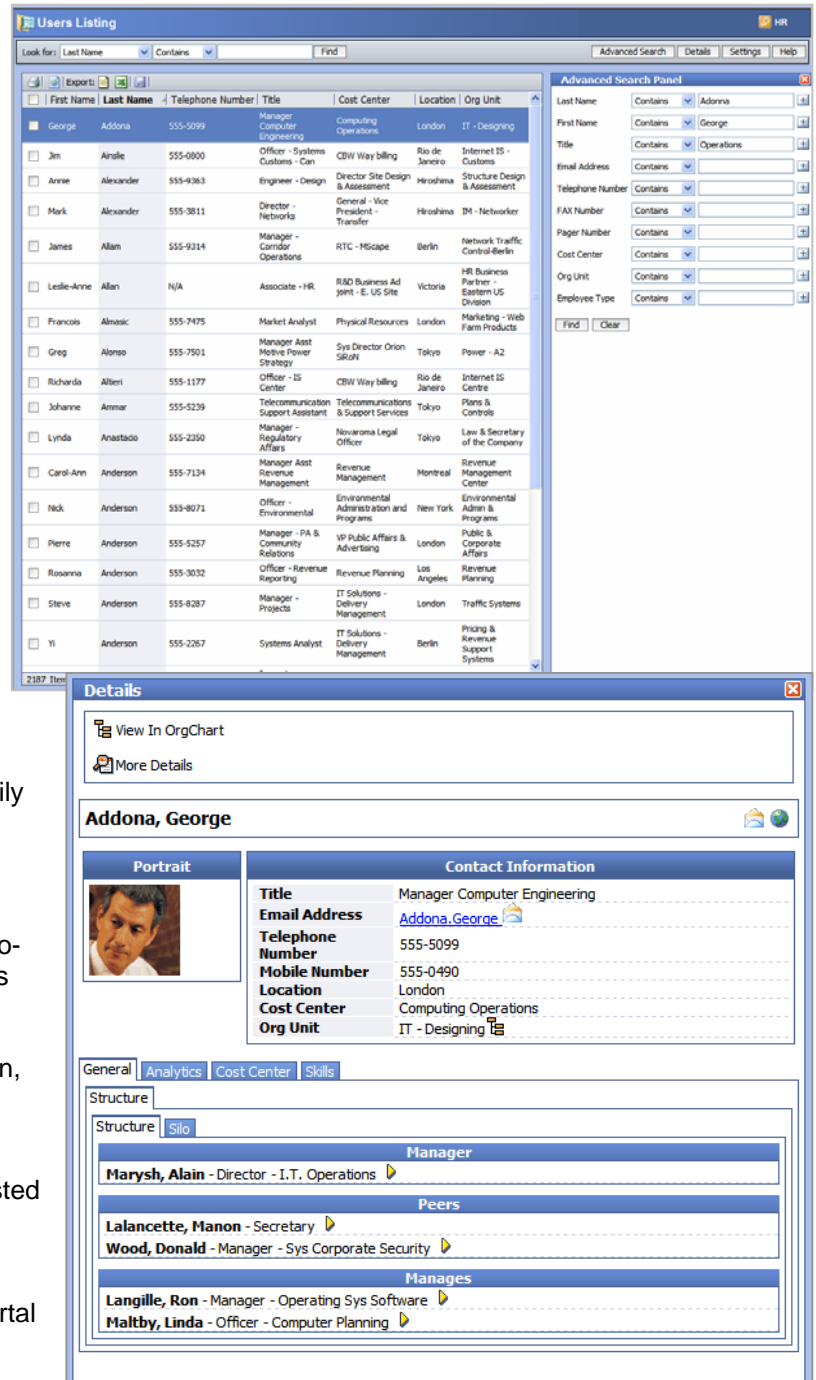

Seamlessly integrated as a powerful front-end layer with your Enterprise Resource Planning (ERP) system, Nakisa Directory automatically displays real-time, up-to-date workforce information, eliminating manual input and transmission of outdated information throughout the organization.

360-DEGREE VISIBILITY INTO YOUR WORKFORCE

Through dynamic, tabular views of workforce information, Nakisa Directory provides in-depth visibility into your human capital. Quickly and easily visualize employee contact details, reporting structure, peers, skills, qualifications and more.

- Corporate white pages that provides up-to-date employee contact information across the organization
- Search for employees by position, division, organization unit, group, or country
- Save your listings for faster retrieval of relevant information and reduce time wasted looking for the same information

Integrate Nakisa Directory with your corporate portal to promote communication and collaboration organization-wide. Empower your employees to identify the resources they need to get their jobs done.

RAPID ACCESS TO ORGANIZATIONAL INFORMATION

With Nakisa Directory’s sophisticated search, obtain a high-level overview of your entire enterprise or narrow your search via multiple criteria. Users can even filter the corporate directory by organization unit, employee type, conference rooms, skills, certifications and more, minimizing time wasted searching for data.

Through real-time access to workforce information, Nakisa Directory offers an accurate and efficient way to visualize and manage human capital data.

A SEAMLESS USER EXPERIENCE

Work seamlessly from within Nakisa’s easy-to-use interface and extend your ability to visualize complex organizational information.

Nakisa Directory is completely interoperable with your organization’s ERP, portal and data warehouse with its dynamic, front-end functionality.

Our single point of access allows data to be aggregated from multiple sources in real-time and presented in highly interactive views. Users can easily search for and visualize up-to-date human capital information—eliminating the need to invest in another costly solution.

Feature	Benefit
ERP, portal & data warehouse integration	Seamlessly integrate Nakisa’s dynamic directory UI with existing systems to provide deeper visibility & extend IT investment.
Real-time, accurate data	Provides up-to-date, quick access to employee contact information, position, reporting structure, peers, subordinates, etc.
Advanced searching capabilities	Intuitive search facilities offer unlimited flexibility for users to search for any employee and view their complete details.
In-depth visibility	Enhanced communication and collaboration through easy access to workforce information.
Bookmark lists	Saved desired listings for faster retrieval of relevant information. Avoid wasting time by keeping frequently referenced information handy.
Faster communication	Nakisa Directory connects to your default email system. Easily search for and select individuals for a group email.
Powerful print functionality	Print lists for offline reference and convenience.
