

LOCATE ORGANIZATIONAL RESOURCES WITH EASE

Organizations spend much time and effort searching for the resources required to accomplish day-to-day tasks. Having a single source of organizational information can drastically improve efficiency. Nakisa FloorPlan is a 100% Web-based solution that dynamically displays your organization's physical locations, human capital and assets.

Seamlessly integrated as a powerful front-end layer with your Enterprise Resource Planning (ERP) system, Nakisa FloorPlan automatically displays real-time, up-to-date floor plans and minimizes time wasted searching for organizational resources.

GRAPHICALLY MAP YOUR HUMAN CAPITAL AND ENTERPRISE ASSETS

Dynamic views into the enterprise enable users to easily visualize organizational layout, where colleagues and resources are situated and easily navigate throughout the entire organization. Filtered views and mouse-overs provide an intuitive, easy way to view conference rooms, workstations, equipment and much more.

- Generate dynamic floor plans of offices or buildings in any geographic location
- Quickly locate employees, conference rooms, office supplies as well as fire and safety equipment
- Navigate through the organization by filtering views to search for specific resources

Increase employee productivity and efficiency while meeting regulatory compliance requirements.

HEALTH & SAFETY COMPLIANCE

Nakisa FloorPlan can help your organization with health and safety initiatives by displaying vital equipment such as fire extinguishers and first aid kits so employees will know where to locate their nearest resources in case of emergency. Ensure your employees are prepared to handle crises when they occur.

Nakisa FloorPlan is completely interoperable with your organization’s ERP, portal and data warehouse with its dynamic, front-end functionality.

A SEAMLESS USER EXPERIENCE

Work seamlessly from within Nakisa’s easy-to-use interface and extend your ability to visualize complex organizational information.

Our single point of access allows data to be aggregated from multiple sources in real-time and presented in highly interactive views. Users can locate colleagues, organizational resources, health & safety equipment and much more—eliminating the need to invest in another costly solution.

Feature	Benefit
ERP, portal & data warehouse integration	Seamlessly integrate Nakisa’s dynamic floor plan UI with existing systems to provide deeper visibility & extend IT investment.
Intuitive user interface	Mouse-over or click on any area of the floor plan to quickly visualize where colleagues and resources are situated.
Real-time, accurate data	Generate real-time floor plans to visualize your human capital data and organizational resources and avoid data inaccuracies.
Filter views to locate specific resources	Sort views by conference rooms, buildings, geographic locations, equipment, offices, cubicles, labs and more.
Locate health & safety equipment	Be prepared with a crisis strategy by communicating to employees where they can find resources such as fire and safety equipment and first aid kits in case of emergency.
Powerful print functionality	Print floor plans for offline reference and convenience.
